# **NEW HAMPSHIRE REFORM AGENDA 2020**

"Our democracy is broken and our elections are rigged to favor wealthy political donors and corporate special interests. When I'm elected, I'll fight tirelessly to stop the surge of big money in our elections, protect the right to vote, and ensure that our government works for the people."

This Reform Agenda details a wide range of options for building a unique anti-corruption and reform platform for your campaign. It covers both policy solutions that you should consider for your time in office, as well as proactive campaign steps that you can take today to show voters that you're serious about fixing our broken system. Not all of these solutions will fit with every candidate, and that's okay - this is a menu from which to pick and choose. We're always happy to discuss any of these options in more detail.

The Reform Agenda is organized into four policy areas in need of reform: money in politics, voting rights, redistricting, and other broad changes to how Concord works. Each section presents a menu of voluntary actions and policy solutions that candidates can take to demonstrate to voters that they're committed to making real change. And, of course, we encourage you to join Democrats from across the country in making a commitment to introduce a comprehensive anti-corruption and reform bill as your first act in office.
